

Panel Discussion
Lessons on Going to Scale with OFSP

7th SPHI Meeting
October 7, 2016

“Going to scale”, “Scaling up”

- We all talk about it
 - ✓ Achieving impact at scale is a key ambition
 - ✓ Strong demand from countries, globally to access OFSP
 - ✓ We have great technologies, and piloted delivery mechanisms
- We are committed to going to scale
- **The question is: HOW?**

- How to scale up (and what exactly)?
- How to scale up well? (effectiveness, efficiency)
- How do we know that we are doing it well?

➤ Need a systematic and well documented approach to scaling up.

➤ SUSTAIN was designed to develop and assess such an approach to scale up:

- Seed systems
- Nutrition integration
- Commercial processing

Panel Discussion

2 rounds of questions:

1. Progress made

- Approaches used
- Results coming up
- Use of M&E
- Adjustments you have made and why

1. Lessons emerging

- Key elements of successful scaling
- What do we need to improve for overall learning (beyond SUSTAIN)

Panelists

Penina Muoki (Kenya)

Kirimi Sindi (Rwanda)

Roland Brouwer (Mozambique)

Robert Ackatia-Armah (for Malawi)

Julius Okello (Impact Assessment, M&E)
