

Day 1 Recap

Setting the Scene

1. Overview presentation on Biofortification

Objective: Basic Principle for building nutritious food basket in the context of BNFB project.

2. Presentation on advocacy and resource mobilization – Lessons from RAC

Objective: Experiences that shape the BNFB project and building on previous successes.

Understanding the BNFB project

1. Project overview presentation & discussion

Objective: Creating common understanding of the project with respect to its goal, objectives, targets and indicators.

2. Organizational interests in BNFB project

Objective: Building collective vision of the BNFB project that takes into account the diversity of interests of the partners.

Team Development

1. Stages of Team development

Objective: Appreciation of the processes for team development and the corresponding leadership responsibilities at each stage.

2. Johari Window and Feedback

Objective: Exposure to some tools for enhancing our capabilities to work better in teams – building effective teams taking into account the diversity of individuals.

Learning in our teams and organizations

1. Concept of Learning Organization

Objective: Need for our teams and organizations to plan how to continuously and adapt to changing needs and contexts.

Relevance

Performance

2. Contextualizing learning in our BNFB teams and partnership

Timing for this was not appropriate – deferred until we have better understanding of project set-up & delivery mechanism
